MEDICAL SCHOOL GRADUATION

The name of the school or college and the year of graduation are shown by the significant part of the name; e.g., graduation from Cornell University Medical College in 1910 is indicated as **"Cornell 1910."**

Readers are particularly cautioned that, where the names of certain medical colleges have undergone change, the name is herein used as it was on the date of the physician's graduation. Examples follow:

LIC Hosp—To and including 1930
LIC Med—1931 to date
NY Hom—To and including 1935
NY Med—1936 to date

NY Univ—To and including 1898
Bellevue—To and including 1898
Univ & Bell—1899 to 1934, inclusive
NY Univ—1935 to date

MEDICAL SOCIETIES

Abbreviations are used for membership in medical societies other than the County and State Medical Societies and the American Medical Association, membership in which is indicated by the Symbol ★ preceding the name. When the abbreviation indicating the field of medicine in which the society concerns itself stands alone, it signifies that it is a local society; e.g., in Buffalo listings the Buffalo Surgical Society is indicated as "Surg" only.

MEDICAL STAFF APPOINTMENTS IN HOSPITALS

Abbreviations designate a physician's official title and department in the hospital with the word "attending (or visiting)" omitted; e.g., an Attending Dermatologist at Post-Graduate Hospital is indicated as **"Derm P-G"**, and an Assistant Attending Dermatologist as **"Asst Derm P-G."** The official title **"Cons"**, however, is one exception where the word "attending (or visiting)" is not implied; e.g., **"Cons Path"** should be read as "Consultant in Pathology", or "Consulting Pathologist."

PREFACE

IN THIS, THE FORTY-SECOND EDITION of the Medical Directory of New York, New Jersey, and Connecticut, are listed the names of physicians who have registered their licenses to practice medicine with the various County Clerks in the three adjoining states, New York, New Jersey, and Connecticut. It is published by the Medical Society of the State of New York but the State Medical Societies of New Jersey and of Connecticut have contributed their share to its compilation.

As of December 1, 1946, the total numbers of medical practitioners listed in this Directory are, as follows:

State of New York			26,734
Greater New York		17,089	
Borough of Bronx	2,098		
Borough of Brooklyn	4,532		
Borough of Manhattan	8,194		
Borough of Queens	2,064		
Borough of Richmond	201		
State exclusive of Greater New York		9,645	
State of New Jersey			5,655
State of Connecticut			2,632
			35021

This Directory lists these physicians with special reference to the following professional data:

- Location by towns
- Name and address
- Office hours and telephone
- Medical school and year of graduation
- Certification by American Boards in Medical Specialties
- Qualified Psychiatrists certified by New York State Department of Mental Hygiene
- Qualifications for general and special work under the Workmen's Compensation Act of New York State
- Membership in Medical Societies, national, state and local
- Fellowship in the American Colleges of Allergists, of Physicians, of Chest Physicians, of Radiology, and of Surgeons
- Medical staff appointments in voluntary, state, and municipal hospitals (official titles)

The membership of the three State Medical Societies is as follows:

Medical Society of the State of New York	20,552
The Medical Society of New Jersey	4,459
The Connecticut State Medical Society	2,152

Any information desired may be obtained through the three State Medical Society offices:

FOREWORD

THE MEDICAL SOCIETY OF THE STATE OF NEW YORK presents this new ***Medical Directory of New York, New Jersey and Connecticut*** for your approval, with the hope that you will find it useful.

Five years have passed since the last medical directory was printed. Many changes have occurred during the war years, and during the subsequent return of the Army, Navy and Public Health Service physicians to civilian life. Approximately one-half of the doctors in our files have changed their addresses, two thousand post office returns reveal physicians who have not yet located, medical societies and hospitals have changed their names, hospital staffs have been completely reorganized, some hospitals have closed. And all of these changes have been reflected in the doctors' biographical data. Our compilation staff has worked ten months recording these changes which have occurred among 35,000 physicians.

It has been a difficult task to pick up the threads after five years. Although every doctor's hospital appointments have been faithfully compared with lists supplied by the institutions, inability to secure proper source information has prevented checking membership of American Boards and Colleges and national and local medical societies. Please let us know if you discover errors, so we can correct them in the next edition.

With this explanation we present the new medical directory for 1947.

CHARLES B. TOWNS HOSPITAL

293 CENTRAL PARK WEST • NEW YORK 24, N. Y.

Exclusively for ALCOHOLISM *and* DRUG ADDICTION

We regard alcoholism and the varied drug habits, including barbiturism, as both physiological and psychological sicknesses. Our treatment is a hospital procedure which eliminates craving by a method of detoxication and quickly restores normal body functions. Following this our psychological approach to the problem has proven most successful.

We have perfected the treatment of drug addiction over a period of forty years. It is now generally accepted as standard. It is completed within a definite period, at a fixed charge, and entails a minimum of discomfort. The patient is assured of absolute privacy.

The hospital offers completely modernized facilities with cuisine and service of the highest standard. The special nature of our work enables us to eliminate the usual hospital atmosphere.

New pamphlets—*"Some Salient Facts About Drug Addiction"* and *"Some Salient Facts About Alcoholism"* now available on request—also our *"Symposium of Medical Opinion."*

A Humane Ideal

Seventeen years ago a private hospital for psychiatric disorders in Central New York was a daring community venture. Its need has been proven by calls for its service beyond its capacity. Its purpose, to serve acute recoverable conditions at costs within limits of moderate or affluent means, has prevailed.

A Scientific Necessity

The small group affords the best opportunity for the application of **intensive individual psychotherapy** with all the **modern scientific innovations**—thorough somatic and psychiatric survey — psychotherapy—occupational therapy — ELECTROSHOCK THERAPY — homelike, friendly atmosphere.

THE CLIFTON SPRINGS SANITARIUM AND CLINIC

Hospital and Clinic Building

Sanitarium Main Building

CLIFTON SPRINGS, NEW YORK *Operated under a non-profit deed of trust.*

- The European situation is creating a new demand for the facilities of American Spas and health resorts. The Clifton Springs Sanitarium was founded in 1850 and has been in continuous operation for nearly 100 years, and offers its facilities to the American medical profession.

The Clinic is general and maintains competent medical, surgical and laboratory staffs. Special facilities are available for the management of metabolic and cardio-vascular disease, arthritis and the psychoneuroses. All types of general medical and surgical cases are received for diagnosis and treatment. Recognized forms of physiotherapy are provided and there is an adequate dietetic service. By virtue of its medical equipment and of its location the institution offers the combined advantages of a medical center and a rural Spa.

Cases of active pulmonary tuberculosis, contagious disease, epilepsy, and insanity are not accepted.

The facilities of the Sanitarium are also open to guests, who do not wish examination and medical care, but who come simply for the baths and massage, for rest and recreation.

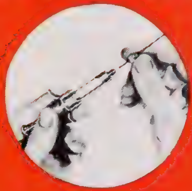
THE TUBEX SYRINGE IS EASY TO OPERATE. .



1

A 20 gauge, 1½ inch needle is attached. Both Tubex syringe and needle must be sterile and dry before use.

2

To facilitate injection keep Tubex at room temperature for several hours. Fluidity may be increased by immersing in hot water for a few minutes before use.

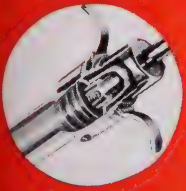
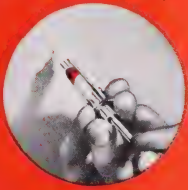
Tubex syringes and needles, developed and produced by J. Bishop & Co., are used exclusively by Wyeth Incorporated.

ERE IS HOW YOU DO IT:



4

Breech is closed and plunger brought in contact with threaded shaft protruding from top. Plunger is twisted clockwise until threads are locked and plug moves freely.



5

Before injecting, aspirate to insure that needle is not in a blood vessel. (If Penicillin-Oil-Wax is made fluid by heating, aspirated blood follows a central channel and appears at the upper end of Tubex. If it is used at room temperature, aspirated blood appears at lower end.)

PENIORAL®

Penioral (Buffered Penicillin Wyeth) reaches the patient *Laboratory Fresh*. It is protected three ways against moisture, arch enemy of penicillin.

- Vial is sealed airtight until opened.
- Desiccant absorbs moisture after vial is opened.
- Blue indicator turns pink when excessive moisture threatens full potency of the penicillin.

Each vial contains an average day's prescription.

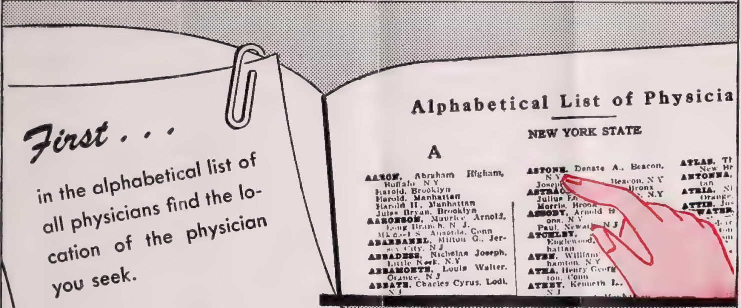
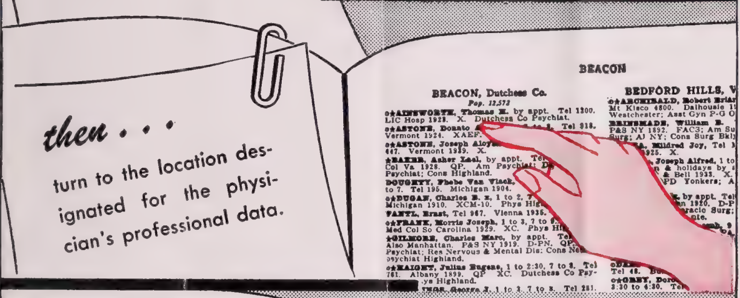
How to use the DIRECTORY



Alphabetical List of Physicia
NEW YORK STATE
A

First . . .

in the alphabetical list of all physicians find the location of the physician you seek.



BEACON
BEACON, Dutchess Co.
BEDFORD HILLS, V

then . . .

turn to the location designated for the physician's professional data.

Following the alphabetical list of physicians there is an alphabetical list of the voluntary, municipal and state hospitals in New York, New Jersey and Conn.

Official staffs of the hospitals in the New York City Boroughs of Bronx, Brooklyn, and Manhattan immediately follow the street lists of these Boroughs.

Official staffs of the hospitals in the New York City Boroughs of Queens and Richmond immediately follow the professional data of the physicians in these Boroughs.

Official staffs of the remaining hospitals in New York State, New Jersey and Connecticut are listed immediately following the entire professional data of each state.

HISTORY OF THE MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY, AND CONNECTICUT

THIS is the forty-second edition of the *Medical Directory of New York, New Jersey, and Connecticut.* The first was published in 1899 and distributed to the members of the New York State Medical Association and to the members of the New York and Kings County Medical Associations. Through a Committee on Publications, the New York State Medical Association had "joined in the reissue" of this publication, according to the Transactions of the New York State Medical Association for the year 1899, Volume 16, page 821.

Presumably, this statement of "reissue" in the Transactions of that organization had reference to a yearly volume called the *Medical Register of New York, New Jersey, and Connecticut,* which was published by the New York Medico-Historical Society and which had appeared yearly from 1862 to 1896. The title, *Medical Directory of New York, New Jersey, and Connecticut,* was not used as such until 1899.

In the 1900 edition of this Directory, the statement appears on the title page, "Published by the New York State Medical Association." The same statement appeared until 1906, when it was changed to, "Published by the Medical Society of the State of New York."

For those not familiar with medical society history in New York State, certain events deserve recital here. The Medical Society of the State of New York was organized under an act of incorporation in the year 1807. In 1884, owing to a schism among its members, a second state society was formed under the name of New York State Medical Association. Both organizations continued to function—with overlapping membership—until they were amalgamated in the year 1905. By their agreement the New York State Medical Association went out of existence, transferring its assets and good will to the Medical Society of the State of New York. Since that time the *Medical Directory of New York, New Jersey, and Connecticut* has been published by the Medical Society of the State of New York.

It is interesting to compare certain figures in the first edition in 1889 and in the forty-second edition in 1947, relating to the number of registered physicians listed in the Directory. The total number in the three states in 1899 was 11,625. In the *1947* edition the total number in the three states is 32,609. In the early edition these were distributed in the three states as follows: New York, 9,199; New Jersey, 1,481; and Connecticut, 945. In the present edition the figures are: New York, 26,638; New Jersey, 5,655; and Connecticut, 2,632.

The House of Delegates of the Medical Society of the State of New York on May 19, 1906, adopted the following resolution which has been strictly complied with in all succeeding editions: "Resolved, That in the *Medical Directory of New York, New Jersey, and Connecticut,* published by the Medical Society of the State of New York, only the names of registered physicians be inserted."

THE NEED FOR a stable preparation of amino acids—one that is *stat. fresh* for venoclysis—has now been satisfied by the production of *lyophilized amino acids*, dry and dehydrated like blood plasma.

This new preparation, rich in "essential" amino acids, effectively combats negative nitrogen balance; readily soluble, it is compatible with your choice of U. S. P. diluent and can be given as a 10% solution; and the pH is 6.5. Each bottle contains 60 grams of amino acids, enough to satisfy the average daily nitrogen requirements of the surgical patient.
